

Godinton Primary School

Accessibility Plan September 2017 – September 2020

Vision and Values

Godinton Primary School aims to identify and remove barriers to disabled pupils in every aspect of school life. We have high ambitions for our disabled pupils and expect them to participate and achieve. We endeavour to make all children feel welcome irrespective of race, colour, creed or impairment. This commitment to equal opportunities is driven by the National Curriculum Inclusion statement and the school endeavours to provide the following:

- Teachers setting high expectations for all children.
- Suitable learning challenges;
- Respond to pupils' diverse needs;
- Overcome potential barriers to learning and assessment for individuals and groups of pupils.

Information from Pupil Data and School Audit

The Disability Discrimination Act (DDA)/ Equality Act (2010) defines a person as being disabled if they have *'a physical or mental impairment which has a substantial and long term adverse effect on his or her ability to carry out normal day to day activities'*. We also recognise that a physical or mental impairment is a broad definition which includes children with a wide range of impairments including physical and sensory such as speech and language needs, learning disabilities and medical needs such as diabetes where the effect of the impairment on the pupil's ability to carry out normal day – to – day activities is adverse, substantial and long – term.

Godinton Primary School recognises the overlap between the definition of disability in the Disability Discrimination Act and the definition of Special Educational Needs in the Education Act (1996). We understand that many children who have SEN will also be defined as having a disability under the definition from the Disability Discrimination Act.

Godinton Primary School

Accessibility Plan September 2017 – September 2020

The school currently has a population of 423 pupils, 8.7 % of which have a Special Educational Need or needs that could be described under the DDA as disabled. Those pupils with Special Educational Needs (SEN) that can be categorised as disabled under the definition from the DDA are detailed below, this may be a primary or secondary need:

Nature of Need	Number of children (On role or disclosed by parents)	Number of adults (staff or disclosed by parents)
Diabetes	1	1
Hearing Impairment	0	0
Visual Impairment	1	0
Physical disability	2	0
Specific Learning Difficulty e.g. Dyslexia	21	0
Tourettes Syndrome	0	0
Speech and Language	8	0
Central Auditory Processing Disorder (CAPD)	0	0
Social, Emotional and Mental Health Difficulties	6	0
Autistic Spectrum Disorder/ Aspergers Syndrome	6	0
Other	2	0

Godinton Primary School

Accessibility Plan September 2017 – September 2020

Pupils are supported in the school through pupil progress meetings, class and individual provision maps that detail intervention, small group work and 1:1 support as necessary. We have also accessed Outreach from our local special school The Wyvern School for our most vulnerable pupils. We use a graduated approach to supporting our pupils with Special Educational Needs and Disabilities (SEND hereafter) and enable them to have access to universal provision, targeted short term intervention and long term, personalised learning as required. We use a plan, do, review cycle to monitor the provision of our children through our use of provision maps, SEND support plans and parents evening three times per year for pupils with SEND. All pupils with SEN have an end of Key Stage Outcome that staff and parents work toward and review.

We currently have a high pattern of attendance, no fixed term exclusions and 1 internal exclusion.

All disabled pupils have equal access to off site activities and provision for this is detailed on risk assessments. We achieve this by having good contact with our parents and carers about these matters.

It is expected that if current disabled pupils or future disabled pupils should have some difficulty in accessing the curriculum due to the nature of the equipment, this will be provided. The school currently has a class set of laptops and 16 iPads with a range of Apps available to support learning and access to the curriculum. There is one 'stand-alone' ipad currently available. If small equipment such as adapted scissors, smaller computer mice, coloured labels on keyboards, adapted SAT's papers or adaptation to P.E. equipment, for example, are necessary these will be provided. Adaptations to the curriculum will be made where necessary to support disabled pupils and advice will be sought from outside agencies such as the health teams or outreach support from local schools as required.

Godinton Primary School

Accessibility Plan September 2017 – September 2020

Disabled pupils in the school may have their needs identified and recorded through the use of an inclusion or medical care plan as necessary. This is a long-term document that details any adaptations, considerations or requirements that the pupil might need. These are reviewed in accordance with the long-term nature of the document and shared with parents.

The physical environment of the school is mostly flat with a large grassy field and tarmac playground area. An assessment of the schools grounds and internally has been made and deemed to be manageable for wheelchair users apart from a slight elevation on the playground by one of the entrance doors. All external doors can be assessed by a wheel chair. Internal doors can be assessed by a wheel chair if they are kept open with a door wedge; doors cannot currently be accessed by any electronic means apart from the main entrance to the reception area. The immediate environment of pupils with specific physical needs will have reasonable adjustments made to it to support their access to the school.

The school has a policy on medicines and children are able to receive prescribed medicine at the school office. All medicines given are recorded and signed by the person giving the medicine. Parents must complete a permission form for this that details the medicine to be administered and in what dose. Parents are requested to complete a medical needs form annually and this information is stored in the class registers to give class teachers easy accessibility.

The school also has a personal care policy which encourages the school and parents to work together. We now have a medical room where personal care needs can be attended to. This includes a disabled toilet and shower which can be used as necessary.

Pupils are assessed for their academic progress six times a year and analysis for pupils progress is undertaken regularly. The teaching staff produce a class provision map which identifies children who are at risk of underachievement, considers what their barriers to learning are and explains what has been put in place to support them. They also undertake a data analysis task prior to the pupil progress meeting. Any barriers to learning and key points from the discussion are recorded by the

Godinton Primary School

Accessibility Plan September 2017 – September 2020

Senco assistant who attends all meetings with the Head teacher or Assistant Heads. The Assistant Head for Inclusion attends all pupil progress meetings. Pupil progress is discussed with staff three times per year. A data pack of information is produced for all staff to have access to annually in order to track progress over time. Pupil assessment is ongoing through class based daily assessment of progress with learning objectives, utilising success criteria to help the children to understand how they can achieve their objectives. Any progress issues are discussed with the Head teacher and Assistant Head teachers at the pupil progress meeting and as necessary during the year.

The emotional well being of all pupils at Godinton Primary school is valued and promoted through the employment of a Family Liaison Officer as well as provision for pastoral support. This support could include regular meetings with family members, early help intervention, bereavement support and interventions regarding anxiety, self – esteem or support to work as part of a group. All children and staff work towards the Godinton values which are rewarded weekly to individual children in each class with a ‘tea party’ with the Head teacher. We also have a robust house point system in place that encourages all children and motivates them to do well.

At Godinton Primary School we endeavour to approach the support that we provide for pupils with Special Educational Needs and Disabilities in a positive and productive manner. We aim to work with parents to ensure that the best possible outcomes, care and provision is made available to their child and themselves. We hope to tailor provision to the individual needs of those pupils and in doing so ensure that they are able to achieve their full potential in our setting. Any adaptations to the environment or curriculum access are made wherever possible and we regularly review what works with our parents, carers, staff and pupils.

Views of those consulted during the development plan

Parent questionnaires are sent to parents to gather their views on key areas of school life. These documents are revised yearly and questions have now been included that seek to find out more detailed information about the views and aspirations of all parents in the school of the schools attitude and emphasis on inclusion and reducing discrimination. An additional questionnaire is sent to parents annually asking them to disclose whether they are disabled and the nature of their disability as well as the needs of their children in case they are not known to us. Members of the Disability and Equality Working Party were involved at each step of this plans review and creation. An electronic copy of this plan is available on the school website.
