

Ladybirds and Butterflies Homework Trail (Term 1 2026– 2027)

Weekly homework tasks

Reading

Read or share a book at least five times a week. This could be your school reading book or a book from home.

Mathletics

Tasks will be set on Mathletics on a weekly basis, although you can use the games and challenges available online as often as you like. The more you practise, the better!

Spellings

Have a look at and learn the words from the front of your homework book and practice regularly. Have a look at the high frequency word lists that can be found on the [school website](#). Select the list that contains words that you know you need to practise to enhance your writing.

Off on the trail...

You must complete three squares in a row, passing vertically, horizontally or diagonally through the middle square.

Write about a different country or place that you have visited. What do you know about the country? How is it similar and how is it different to Ashford?	Draw a food chain diagram. Identify a producer, prey and predator in a simple food chain. Include labels or sentences to explain how energy is passed through the chain.	Design your own African animal/creature and use exciting adjectives to label it. Where might it live? What does it eat? Describe its appearance and behaviours.
Create your own rain gauge. How many centimetres of rain will you collect over a week? Make a prediction: Do you think that it will rain more or less next week?	<u>Write a letter to Amelia Earhart. Can you ask her a question about her flights or places she had visited. Try and remember all of the features of a letter and include these.</u>	Find out about our Class Hero Tim Peake . What is he known for? Where/when was he born? Where did he stay while in space? How did he get there? Can you find out any other interesting facts?
Draw a well-known landmark from another country. Find out about the architect who designed it and what it's made from.	Find objects around your home that remind you of a character from your favourite book. Take photos or draw them and explain why you chose them.	Create your own model flying machine. Make a label about it. What is it, what is it made of, which country would you find it in?

The Extra Mile...

Can you complete any 6 squares on the grid to get your Extra Mile sticker.

Homeward Bound...Record all your homework in your homework book. You do not need to bring in your homework each week to be checked. We will be holding a Trail End Homework Showcase in class on Tuesday 3rd November 2026 when you can share your homework with the class and celebrate your hard work.
